How does Surfacing Technology differ?

Surfacing Technology decorative concrete products were developed to exceed the stringent requirements of our most discriminating decorative concrete artisans.

Surfacing Technology not only knows the chemistry and science behind our products, but we understand the evolution of our industry and your needs.

In addition to our knowledge in manufacturing, we understand the importance of proper field training. That is why all Surfacing Technology products are applied by trained, licensed applicators.

How can we help your business?

- Provide turnkey solutions to our customers
- Individual technical & customer support
- Professional approach to efficient solutions
- Marketing expertise to help manage your business
